

Koichi Fukuda

Dr. Koichi Fukuda worked on TCAD at Oki electric industry since 1985. In 1990, he visited RWTH Aachen for joint work concerning device modeling. From 1996, he joined Selete for the joint development of 3D TCAD system HyENEXSS. In 2010, he joined AIST and started to develop next generation TCAD. Activities to demonstrate the power of modeling in TIA project, are not only his lifework, but also his heavy homework ...
